October 24, 2008

MEMORANDUM: Parents and Staff of Mark Twain Elementary School

SUBJECT: Notification of AHERA Inspection

As required annually by the Asbestos Hazard Emergency Response Act (AHERA) of 1986, our building has been inspected for asbestos-containing materials (ACM). The most recent inspection was conducted on March 14, 2006, in accordance with Environmental Protection Agency (EPA) regulations and DoDEA Policy. Three-year inspections are mandatory. MTES will be re-inspected March 2009.

The results of the inspection indicate we have the following asbestos materials in our building:

- Cement Roofing Panels
- Floor Adhesive

As required by EPA, a periodic surveillance program is in effect for asbestos materials that remain in place and their condition will be closely monitored.

A copy of the Asbestos Management Plan is kept in our office and is available for your review. If you have any questions or concerns, please do not hesitate to contact me at CIVILIAN: 06221-57-6996 or DSN: 370-6996.
